Class Descriptions

Regular Classes: These classes are open to all dogs, 18 months of age or older, as described within the current rules of the Agility Association of Canada.

Specials Classes: These classes are open to all dogs but are intended for dogs that are of a size or stature which limits their jumping ability. A dog may no longer compete in Regular classes after being entered at an official trial in any Specials class level, except that they may move to Veterans.

Veterans Classes: These classes shall be for dogs seven years of age or older that are currently competing in any Regular Class and for dogs five years of age or older who have competed in the Specials Class level for a minimum of twelve months.

Starters Games Classes: The Starters Games classes are open to dogs that have not earned two qualifying scores in a particular game. However, if at the time of entry to this trial a dog has earned two qualifying scores in a particular Starters level game, the dog must be entered in the Advanced Games Classes for that particular game.

Advanced Games Classes: The Advanced Games classes are open to dogs that have earned two qualifying scores in a particular Starters level game but have not earned three qualifying scores for a particular Advanced level game.

Masters Games Classes: The Masters Games classes are open to dogs that have completed three qualifying scores at the Advanced level for that particular game.

Gamblers Class: This game demonstrates the handler's strategy and the dog's ability to work at a distance from the handler. The object of the game is to accumulate as many points as possible during the Opening Sequence and successfully complete the main Gamble.

Jumpers Class: This game demonstrates a dog's natural jumping ability. The dog is required to complete a course comprised of hurdles and tunnels as prescribed by the judge.

Steeplechase: This class demonstrates the dog's ability to run and jump at speeds while maintaining control on the A-frame and weave poles.

Snooker Class:

This game demonstrates the handler and dog's versatility as they work together against the clock. The object of the game is to accumulate as many points as possible by successfully completing obstacles in the prescribed order and within the allotted time.
